New YORK, May 8 .- The dead body of Nathaniel W. T. Hatch, a banker and broker at 14 Nassau street, was found this morning by a workman in the yard in the

rear of 64 West Twentieth street. Mrs. Lilium Scofield was taken to the after the discovery of the body. She and her husband, Charles W. Scoffeld, live in apartments at the address given. Mrs. Scoffeld said she dined with Hatch last night at a restaurant in West Twentyseventh street, a place known as Mine. and Mr. Hatch accompanied her home. Arriving there she invited him in, she said, in order to show him her apartments.

Mr. Scofield was at that time asleep in movements of his wife and Hatch. The latter was hastily concealed in a room on the second floor and Mrs. Scoffeld turned tioned his wife in a most violent way conhouse. There was a lively quarrel between husband and wife, which only ended when Scoffeld left the house. The woman heard nothing more. She searched the room find him there, nor in any of the surroundnight until the body was discovered in the

yard this morning. Mrs. Scoffeld was pale, but told her story with the utmost calmness to Sergeaut Schmidtberger, giving evidence of no agitation. The husband, Charles W. Scoffeld, was also taken to the station house. He was formerly a broker and in good circumfor a considerable time. He told the police that he had cause on several occasions to doubt his wife's fidelity. Scofield and his wife were held at the police station to await the action of Deputy Coroner Scholer, who had been notified of Harch's death. The skull of the dead man was fractured.

Mr. Hatch was a member of the firm of eldest son of the senior member of the firm. He was thirty-three years old, and lived with his wife in a handsome and wellfurnished house at 36 West Fifty-third street. Until a few weeks ago he resided most prominent ladies in society on the

THE LAND FORFEITURE BILL Provisions of the Radroad Land Forfeiture

Bill as Passed by the Senate. Washington, May 10 .- The main features of the Railroad Land Forfeiture bill as passed by the Senate yesterday are: The first section declares forfeited to the United States all lands heretofore granted to any State or to any corporation to aid in the construction of a railroad opposite to and coterminus with the portion of any such railroad West Thirtieth street police station soon | not now completed and in operation for the construction or benefit of which lands have heretofore been granted, and all such lands are declared to be part of the public domain. The act is not to be construed as forfeiting the right of way or depot grounds of any railrond company heretofore granted, nor as limiting the rights granted to purchasers Fanny's. It was within half an hour of or settlers by "an act to provide for the midnight when they left the restaurant, adjustment of land grants made by Conand for the forfeiture of uncarned lands and for repealing, altering, or amending that act, nor as the back parlor, but was aroused by the | in any manner affecting any cause of action excepting in favor of any purchaser, nor is it to exempt the lands of the Ontonagon and Marquette Company, fifty miles north of Lansing. The second section authorizes persons in possession to meet her husband. Scoffeld's jeaiousy of any such lands (prior to January 1, 1888) to was aroused to a hot pitch and he ques- purchase them (within two years) from the United States in quantities not exceeding 320 cerning the man who had been with her. | acres, at the rate of 2.50 per acre. The section | cle of skiffs and barges as a means of She steadfastly refused to give the man's | is not to apply to lands in Iowa on which any name and insisted that he had left the person has made a pre-emption or homestead settlement. The third section refers to lands of the Northern Pacific Railroad Company heretofore forfeited, and gives persons in possession of them (erior to July 1, 1885) the like right, and confirms to the city of Portland, Ore., where she had left Hatch, but could not rights of way and riparian rights for a water pipe line. The fourth section reserves the ing apartments and thought he had left the right to ferfeit other railroad grant lands for ings, and both Commerce and Water house. She retired and knew no more of any failure, past or future, to comply with the the broker or of what happened in the stipulated condition and also provides that the length. Last evening the water lacked act shall not be construed to prejudice any right of the Portage Lake Canal Company or the Ontonegon & Brule River Railroad Company or any person claiming under them to apply hereafter to the courts or to Congress for any legal or equatable relief to which they may now be

The fifth section exempts from the operation of the act the grant to the State of Mississippi stances. He has been away from home for the Guif and Ship Island railway and the and factories along the levee have been grant to the State of Alabama for a railway tion fixes the price of the even numbered sections of land within the limits of all forfeited land grants at 4125 per acre, and the seventh repeals certain sections of the land grant acts for Minnesota and Iowa so far as they require the Secretary of the Interior to reserve any Walter T. Hatch & Sons, bankers and lands but the odd sections within the primary brokers, at 14 Nassau street, and was the or six miles granted limits. The last section refers especially to the lands of the Portage Lake Canal Company and is in these words: "That in all cases when any of the lands forfeited by the first section of this act or when any lands relinquished to or for any cause reserved by the United States from grants for in Brooklyn, where his wife was one of the relirond purposes heretofore made to the State of Michigan, have heretofore been disposed of by the proper officers of the United States un-The generally accepted theory is that dercolor of the public land laws or under State | prairies. selections in Michigan and confirmed by the Secretary of the Interior, where the consideration received therefor is still retained by the Government, the right and title of all persons holding or claiming under such dis-posals shall be, and is hereby confirmed. ### FLOOD AND TORNADO.

Great Flood in the Upper Mississippi-Ga-

wall of the Moline waterpower for days, at noon carried away a large section of the heavy stone bulkhead which runs across the south channel of the Mississippi between the Rock Island arsenal and the main shore. Five hundred feet of this wall has disappeared and it is believed that the rest kas been so demoralized as to need rebuilding. The wall cost the Government \$100,000. The tide of water coming down to the city front of Rock Island carried out into midstream \$8,000 worth of logs from the upper gress to aid in the construction of railroads | saw mills and the freight warehouse of the St. Paul packet line. All trains are abanother purposes," approved March 3, 1887, or as | doned on the St. Paul road between here and Savannah in consequence of the flood and on the Peoria road on account of the long railway embankment which threatens to break and flood the low land. Hundreds of families are moving out of their houses.

Galena, Ill., has been transformed into an American Venice and the novel spectatransportation is now seen in all of its business portion, except on Main street. On the latter thoroughfare the water in many places is nearly up to the floor, and preparations are being made by those most endangered to move into safer quarters. Boats can now be rowed entirely around the custom house and the post-office buildstreets are navigable nearly the entire four and a half inches of reaching the high mark of 1880.

The river at Quincy is ten miles wide and hundreds of farms are submerged to a depth of several feet. The levee below the city is weakening in places and a large force of men are at work night and day to avert the threatened calamity. Foundiles forced to suspend. The St. Louis, Keckuk from the Tennessee river at Ganter's Landing & Northwestern railway has abandoned to the Coesa river at Gadsden. The sixth sec- all trains north of here, cutting off the towns of LaGrange, Canton and Alexandria. The loss is incalculable. The water is slowly rising.

TORNADO IN INDIANA. CHICAGO, May 12 .- A cyclone of tremendous force whirled over a portion of Northern Indiana last night. The extent of its ravages can only be guessed from a few scattering reports and the fact that the CATTLE-Shipping steers .... 4:0 @ 5:00 telegraph wires throughout a considerable

territory are prostrated. At Winslow siding, on the Nickel Plate railroad a train of sixteen freight cars were lifted from their wheels and distributed in pieces around the surrounding OAT6-No.2....

The bulk of the property is left PORK ................................. 15 00 on 15 to to his sisters at Alton, in equal parts. A most important feature of the will is a private memorandum attached to it, directing his partner, Charles P. Sawyer, and E. S. McComas, to make a rigid investigation into the manner of

his death, and if he is found to have been foully dealt with to prosecute those guilty. He adds that his troubles have made him suspicious and all that may be without cause, but he refers vaguely to a letter in a vault "which may guide you as to whom I have apprehensions of most danger. I have written her if she wants to be free." Further down, he says the remark made by him that he would try to kill himself, was made for effect, as he had no such purpose. If his death should be accidental, destroy the memorandum, but enforce the will, unless revoked. The memorandum makes other disconnected references to his domestic affairs, and says he "fears poison more than all else." The Union Veteran League proposes to push its investigation thoroughly. Friends of the dead man are greatly surprised at this singular attachment to his will and hardly know what to

WHEN WRITING TO ADVERTISERS, please say you saw the Advertisement in

# CATARRH IN THE HEAD.

SYMPTOMS OF THE DISEASE.—Dull, heavy headache, obstruction of the nasal passages, discharges falling from the head into the threat, sometimes profuse, watery, and acrid, at others, thick, tenacious, mucous, purulent, bloody and putrid; the eyes are weak; there is ringing in the ears, deafness, backing or coughing to clear the throat, expectoration of offensive matter, together with scabs from ulcers; the voice is changed and has a "nasal twang"; the breath is offensive; smell and taste impaired; there is a sensation of dizziness, with mental depression, a hacking cough and general debility. Only a few of the above-named symptoms are likely to be present in any one case. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, more deceptive and dangerous, less understood, or more unsuccessfully treated by physicians. SYMPTOMS OF THE DISEASE.-Dull, heavy headache.

COMMON SENSE
TREATMENT.

If you would remove an evil, strike at its root. As the predisposing or real cause of catarrh is, in the majority of cases, some weakness, impurity, or otherwise faulty condition of the system, in attempting to cure the disease our chief aim must be directed to the removal of that cause. The more we see of this odious disease, and we treat successfully thousands of cases annually at the Invalids' Hotel and Surgical Institute, the more do we realize the importance of combining with the use of a local, soothing and healing application, a thorough and persistent internal use of blood-cleansing and tonic medicines.

CHIEF
RELIANCE.

In curing catarrh and all the various diseases with which it is so frequently complicated, as throat, bronchial, and lung diseases, weak stomach, catarrhal deafness, weak or inflamed eyes, impure blood, scrofulous and syphilitic taints, the wonderful powers and virtues of Dr. Pierce's Golden Medical Discovery cannot be too strongly extolled. It has a specific

effect upon the lining mucous membranes of the nasal and other sir-passages, promoting the natural secretion of their follicles and glands, thereby softening the diseased and thickened membrane, and restoring it to its natural, thin, delicate, moist, healthy condition. As a blood-purifier, it is unsurpassed. As those diseases which complicate catarrh are diseases of the lining mucous membranes, or of the blood, it will readily be seen why this medicine is so well established to care them. As a local application for healing the diseased condi-

As a local application for healing the diseased condition in the head, Dr. Sage's Catarrh Remedy is beyond all comparison the best preparation ever invented. It is mild and pleasant to use, producing no smarting or pain, and containing no strong, irritating, or caustic drug, or other poison. This Remedy is a power-panies so many cases of catarrh, thus affording great comfort to those who suffer from this disease.

PERMANENT

The Golden Medical Discovery is the natural "helpmate" of Dr. Sage's Catarrh Remedy. It not only cleanses, purifies, regulates, and builds up the system to a healthy standard, and conquers throat, bronchial, and lung complications, when any such exist, but, from its specific effects upon the lining membrane of the nasal passages, it aids materially in restoring the diseased, thickened, or ulcerated membrane to a healthy condition, and thus eradicates the disease. When a cure is effected in this manner it is permanent.

Porth Dr. Pierrer's Golden Medical Discovery and Dr. Sage's

Both Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy are sold by druggists the world over. Discovery \$1.00, six bottles for \$5.00. Dr. Sage's Catarrh Remedy 50 cents; half-dozen bottles \$2.50.

A complete Treatise on Catarrh, giving valuable hints as to clothing, diet, and other matters of importance, will be mailed, post-paid to any address, on receipt of a 2-cent postage stamp. Address, World's Dispensary Medical Association, No. 663 Main Street, BUFFALO, N. Y.

Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the stomach and bowels, are promptly relieved and permanently cured by the use of Dr. Pierce's Pellets. In explanation of their remedial power over so great a variety of diseases, it may truthfully be said that their action upon the system is universal, not a giand or tissue escaping their sanative insuence.
